

New Source Technology, Inc. Your Lamp Source

Flashlamps, Krypton Arc Lamps and Specialty Lamps

Quality Reliability and Service from your lamp specialists

Founded over a decade ago, New Source Technology has distinguished itself as a leading supplier of flash lamps and arc lamps. Today, these lamps are used in a wide range of medical, industrial, scientific, and military applications.

We offer the latest technology and manufacturing techniques for the most rigorous OEM requirements along with standard designs for existing applications. You can rely on New Source for your high volume manufacturing needs along with custom designs for R&D requirements. Quality products, delivered on time, at a competitive price along with the personal approach of our smaller organization. That's maximum value! For assistance optimizing both new and existing designs, please contact our sales department at:
